

Streamline Screen

*"Lyco's makes the best
rotary drum screen in the world."*

- Lyco customer

LYCO
Manufacturing, Inc.
Leaders in Food Processing Innovation

Lyco's Streamline Screen

The Best Single-Drum Screen on the Market!

Streamline Screen:

- Compact design minimizes footprint
- Rugged construction = long life
- Stainless steel materials, easy to clean and long life
- Low maintenance design – unique, simple, single thermoplastic bearing, no lubrication required
- Self-cleaning minimizes downtime, maximizes production
- 15" diameter by 4' long. 125 GMP with .020 opening.

Self Cleaning Screen and cleaned on the fly filters.

Option: Plant Water Reuse System
Lyco's streamline screen combined with additional filtration and disinfection can save thousand of gallons of water a year.

- Same Compact design & Rugged construction
- Added filters removes particles down to 0.008" (200 micron)
- Lowers water treatment costs because less water requires treatment
- Self-contained system minimizes odors
- Self cleaning screen, easy to change filters provides simple operation
